

**DEPARTMENT OF MEDICAL ASSISTANCE SERVICES
EMPLOYMENT OPPORTUNITY**

This Agency is charged with ensuring proper **MEDICAID** services to qualified recipients. Please visit our website and the Commonwealth of Virginia's website referenced below for additional information and qualifications.

CHIEF INFORMATION SECURITY OFFICER

Role Title: Information Technology Manager I

Position #00207

Pay Band 6, Level II, Hiring Range: \$57,342 - \$115,00

Closing Date: August 14, 2017

The Virginia Department of Medical Assistance Services (DMAS) located in Richmond, Virginia is seeking a visionary, and engineering-centric leader to build a comprehensive and sophisticated program to ensure the security of Virginia Medicaid Program's deployed solutions, critical information, and other data assets, and build upon that security discipline to better serve the agency and its million plus Virginia beneficiaries. This position manages and directs the agency's overall IT security policies and procedures, applications and network security issues; supervising staff who will assist and/or carry out relevant information security system functions such as protecting, detecting and correcting controls for IT systems, disseminating relevant security information to staff and partners, administering security-related training, and conducting security investigations. Qualified applicants must possess a thorough understanding of information security practices and policies, applications and network security issues. Requires considerable knowledge of, and experience in, security administration, including day-to-day knowledge of the operation of security devices (hardware and software). Requires experience in the development and maintenance of security policy, procedures and plans. Must have an understanding of network and system architectures, and experience with implementation of new systems. Requires experience in the examination of new security technologies to evaluate how they may affect organizational risk. Must have considerable experience in the fields of Information Security or Information Systems Review. Requires demonstrated ability to supervise professional staff that perform relevant information systems security functions. Must have ability to effectively interact and communicate orally and in writing with various levels of management and staff, both internally and externally, to ensure the highest level of security is maintained. Bachelor's degree preferred or equivalent combination of education and experience that demonstrates the capability to perform the job; Masters' degree in a related field and Certification as an Information Systems Security Professional, Information Security Manager or Information Systems Auditor is preferred.

ONLINE STATE APPLICATION REQUIRED

Resumes will not substitute for state applications. DMAS will only accept online applications submitted through the RMS by **11:59 p.m.** on the referenced closing date. Faxed, emailed, or hand delivered applications or resumes will not be accepted and resumes will not substitute for a complete state application. Applications must include complete work history, including periods of unemployment if applicable. Consideration for an interview is based solely on the information within the application.
